

LAYERED & STITCHED: 50 YEARS OF INNOVATIVE ART

A showcase of 50 art quilts by renowned master artists, these seminal works show the evolution of the art quilt from the earliest pioneers creating during the 1960s through to today's artists experimenting with new forms, new materials, and new digital technologies.

Viewers are able to trace the development of this exciting art form as it developed from isolated makers, primarily in Ohio and California, into an international movement involving thousands of artists spanning the globe.
